## SKILLS

- **Programming Languages** - C, C++ , HTML , CSS, Javascript , Threejs , Expressjs , ReactJs
- **Framwork** - Bootstrap
- **Tools** - Vs Code , figma, Git
- **Soft skills** - Team work , Problem Solving

## PROJECT

### 3DQuizGame     Threejs

- Implemented realistic physics-based vehicle movement and signal logic to create an engaging user experience
- Used WebGL rendering for fluid 3D animation and optimized performance on web browsers.

### ToDoList     MERN

- Developed a MERN stack To-Do List with CRUD operations for task management.
- Integrated user authentication with JWT for secure access.
- Applied React Hooks & Context API for effective state management.
- Hosted on Vercel (Frontend) & Render (Backend) with MongoDB Atlas.
- Hosted on Vercel (Frontend) & Render (Backend) with MongoDB Atlas.

### 3Interactive 3D Car Viewer

- Created a Three.js-based online 3D car visualizer.
- Developed interactive controls: rotation, zooming, and panning based on mouse and touch inputs.
- Added dynamic color change, allowing users to instantly alter the car's color in real-time.

## EDUCATION

### B.Tech in Information Technology

- Poornima College Of Engineering , Jaipur, Rajasthan | RTU | 2022 - 2026

Current CGPA: 7.22
